

SATIN 200

IMAGE © SHAHID

A resin based, microporous photo paper that has a great satin finish and an excellent base whiteness level.

The coating offers a water resistant protection that produces stunning colour and monochrome prints. The lighter weight base makes it ideal for commercial labs producing reproductions of photographic images, posters, graphic art and exhibition work where you demand high quality at a competitive price.

PRODUCT SPECIFICATION

- Finish/Texture:** Bright White Smooth Satin/Pearl
