

FB Gold Silk 315gsm

Digital & Fine Art Archival Printing Solutions for the Imagemaker

DESCRIPTION OF PRODUCT

The popular FB Gold Silk has a sumptuous silk/satin finish on a fine art heavyweight base making it the industries favourite professional quality inkjet media. Developed with a natural warm base tint to emulate the surface finish, texture and coating of traditional silver halide double weighted paper. A true barium sulphate layer has been meticulously applied to the traditional fibre base, enabling users to create intense, rich blacks & creamy whites – the perfect combination for outstanding portrait & landscape reproductions in both colour and monochrome.

PRINTER & INK COMPATIBILITY

PermaJet FB Gold Silk Baryta has been designed for use with Dye & Pigment inkjet systems. The media has been designed, manufactured and tested for use with Epson, HP, Canon and Lexmark printers.

STORAGE & CONDITIONS OF USE

The storage and use of the product should be in a climate and a temperature of 10 to 30° C at a relative humidity of 30 to 75%. Always keep the product in its original packaging or in archival quality folders. Where possible, always handle the paper or printed surface by its edges. All recommendations and product indications are for guidance, and are subject to our test criteria. There is no guarantee that the same results can be consistent.
